2. Petitioner has undertaken extensive research and publication of information on Delaware energy policy to ensure Delaware citizens have competitive energy rates and has been an intervenor in eight rate cases before the Commission. Competitive rates are essential to the economic well being of our citizens. Petitioner wants to explore alternative routes to improve grid reliability, a key justification for the rate case in Docket 13-115 and the reason for this investigation.
3. Petitioner is an intervenor in the Delmarva Power & Light 2012 IRP which will cover similar issues presented in this case. Petitioner is also an IRP Working Group member.
4. Petitioner has demonstrated experience in meeting deadlines to ensure rate cases maintain the schedules of the evidentiary process and intends to do so in this case as well.

Your acceptance of this intervention by the Caesar Rodney Institute as a Petitioner is hereby formally requested.

Respectfully submitted,

David T. Stevenson
